

## HANNA APPEALS TO J. P. MORGAN

Urges Concessions to Coal Miners in Order to Avert Strike.

## MEET AT SCRANTON

The Miners Propose to Submit All Questions at Issue to Arbitration.

## GIANT STRIKE NEAR

Scranton, Pa., May 8.—The executive committee of the United Mine workers held a short session this morning to consider the advisability of calling out one hundred and fifty thousand anthracite miners unless the operators made wage concessions. Later President Mitchell issued a statement in which he said that the committee has proposed that all questions at issue be submitted to an impartial board of arbitration selected by the national civic federation progress of conference.

Philadelphia, Pa., May 8.—Senator Hanna, chairman of the National Arbitration committee, who is trying to make terms between the miners and the operators, is said to have called to J. Pierpont Morgan that it will be necessary to make concessions to the men if a strike is to be averted.

Scranton, Pa., May 8.—The executive boards of the United Mine Workers of America for the three districts comprising the anthracite coal region met here to consider the report of the special committee which had been in conference with the presidents of the coal-carrying railroads, and to decide whether the men are to remain at work or go on strike for increased pay, a shorter day's work, and an insistence that the coal shall be weighed at the mines.

The miners' representatives were in session all day, but nothing was done of which any definite knowledge would be given the public. The meeting, as far as the outside world knows, made absolutely no change in the situation.

The thirty-four men forming the committee went into session at 10 o'clock in Carpenters' Hall and remained together until 4:45 excepting an hour and a half for lunch. When the meeting adjourned President Mitchell gave out the following response to a request for an account of what had been done: "The committee is canvassing the situation carefully. No decision has yet been reached."

Further than this nothing authoritative could be learned of the proceedings. When asked if anything had been heard from the operators Mr. Mitchell said: "I have heard nothing from the operators. No concessions have been granted and I know nothing of any movement to secure concessions."

St. Petersburg, May 8.—The czar held a grand review of troops this morning. Sixty thousand soldiers participated. The most elaborate precautions were taken to protect the life of the czar. During the actual maneuvers the public was kept a quarter of a mile distant.

Refuge to Indiana Prince Henry. Berlin, May 8.—The board of directors of the Liberal People's party at Luebeck refused to sanction the nomination of Prince Henry for the Reichstag.

Cholera Statistics. Manila, May 8.—Philippine cholera statistics to date are as follows: Provinces, 2,334 cases and 1,695 deaths; Manila, 821 cases and 666 deaths.

## REVOLUTION IN DOMINGO WINS; JIMINEZ GIVES UP PRESIDENCY

All Are Granted Amnesty—American Minister Demands Protection for Interests of the United States—Peace Restored to the Island.

Monte Cristi, Santo Domingo, May 8.—The Dominican revolution is ended, peace is restored, the Jimenez government has surrendered and Vice President Vasquez is at the head of the new government. Belated dispatches from the capital state that Santo Domingo, as already cabled last Monday, surrendered last Friday. President Jimenez sought refuge in the French consulate and many government officers obtained shelter in the French and United States legations.

The approach of the revolutionists to the capital was announced after two days' heavy fighting between the government troops and the forces of general Vasquez, during which many were killed or wounded on both sides.

Rebels Take the City. During the evening Vasquez informed the government that he was shipping munitions of war on a gunboat to Santo Domingo, and that he had sent troops to the river Ozama. Mr. Powell was advised of these move-

## CANADIAN PACIFIC ABSORBS CENTRAL

Wisconsin Road Goes Into the Hands of the Canadian Combine—Unites 10,583 Miles of Line.

Chicago, Ill., May 8.—According to reports coming from Wall street and partially verified in La Salle street, the Canadian Pacific system is said to have acquired control of the Wisconsin Central railway, and will use it as an entrance into Chicago.

It has been the aim of the Canadian Pacific representatives for years to have a Chicago terminal, and the move on their part in securing the Wisconsin Central is called in railway circles a coup.

Wisconsin Central will give the Canadian line an entrance not only into Chicago, but also into St. Paul. The Canadian Pacific owns the " Soo line" and also the Duluth and South Shore railroad. The latter connects with the Wisconsin Central at Ashland, Wis., and thence runs direct to Chicago with a road on good rail lines from Abbotsford to St. Paul.

## WILL MAKE WAR ON THE TOBACCO TRUST

National Leaf Association in Session at Cincinnati—L. B. Carle Elected a Director.

Cincinnati, O., May 8.—The national Cigar Leaf Tobacco Association proposes to join hands with the government in fighting the tobacco trust. It pledges itself to collect the evidence that the trust is violating the laws if the government will punish the offenders. If the government will enact new laws and bolster up existing statutes that are weak in spots the National Leaf Association commits itself to the work of seeing that such laws are obeyed.

The following officers were elected: President—Sigmund Rosenwald, New York.

Vice President—Joseph Freidman of Chicago.

Secretary—Charles Fox, of New York.

Treasurer—George J. Schuster of Milwaukee.

Directors—John R. Young, Philadelphia; Lewis Newberg, Cincinnati; Charles Semon, Cleveland; Thomas Meisinger, St. Louis; M. M. Frye, Lancaster, Pa.; L. B. Carle, Janesville, Wis.; B. A. Kaiser, Boston. The meeting decided to hold the next convention in Atlantic City, but afterward reconsidered and empowered the directors to select the place for the next convention.

## DISCUSS DAIRY WORK

Executive Committee of State Association to Decide on Details for Inspectors This Summer.

Milwaukee Wis., May 8.—The executive committee of the State Dairy-men's association met at the Plankinton house today to map out the work of the inspectors for the summer. Those who are in attendance are Prof. W. A. Henry and H. C. Adams, of Madison; H. K. Loomis, Sheboygan; Ex-Gov. W. D. Hoard and C. P. Goodrich, Fort Atkinson; H. C. Taylor, Orfordville; Chester Hazen, Fond du Lac; C. H. Everett, Racine; A. D. DeLund, Sheboygan; George W. Burchard, Fort Atkinson, and Stephen Faville, Madison.

Wants Curfew at Monroe. Monroe, Wis., May 8.—Dr. W. B. Monroe, member of the city council, has proposed a curfew ordinance for this city. He has taken the Madison ordinance, which he introduced at the council meeting last evening.

Bids For Janesville Postoffice. Washington, D. C., May 8.—Proposals for the construction of the public buildings at Janesville will be advertised the coming week. Bids were opened some time ago, but as they were all above the appropriation allowed, new bids will be made until June 10.

W. A. Kennedy went to Monroe this morning.

## MRS. T. S. DENISON FOR PRESIDENT; MRS. G. H. NOYES CHOSEN AUDITOR

Boom for Mrs. Platt-Decker Collapses, and Popular Demand Among Club Women Brings Choice of New Yorker—Finish Business Today.

Los Angeles, May 8.—The friends of Mrs. Decker of Denver, received a bitter disappointment last night when the report of the nominating committee became public. There are forty women on this committee, and they labored from 5 o'clock yesterday afternoon until just before midnight on the ticket. Every member was sworn to secrecy, but in some manner one of the members confided in a "dear friend" and the result of the session was soon public property. The ticket is as follows:

For President—Mrs. Domes T. S. Denison of New York.

For First Vice President—Mrs. Robert J. Burdette of California.

For Second Vice President—Mrs. Emma Fox of Michigan.

Recording Secretary—Mrs. W. T. Goad of South Dakota.

Corresponding Secretary—Miss Louise Papenhelm of South Dakota.

Treasurer—Mrs. Emma Van Vechten of Iowa.

Auditor—Mrs. Noyes of Wisconsin.

In the board of directors the new members are Mrs. W. A. Nelden of Utah, Mrs. J. C. Carroll of Texas, and Mrs. Humphreys of Kansas.

Mrs. Decker accepts the result gracefully, but her friends and the constant delegates do not conceal their disappointment. It is said this

morning that complimentary nominations will be made from the floor and their renomination will be insisted upon. It is thought that Massachusetts will nominate Mrs. Decker and there may be complications at the last moment, for the coast is still loyal to the Colorado woman. The nomination of Mrs. Burdette for first vice president seems to please all of the delegates, and the promotion of Mrs. Fox from recording secretary to the position of second vice president is considered a well merited honor for a faithful worker.

Minneapolis appears to be in the lead for the next convention, although St. Louis is a strong favorite, owing to the exposition attractions during the biennial year.

Today is the closing day of the biennial session and most of the excitement of the convention is likely to be crowded into the day.

There is likely to be a big fight over the adoption of the new national charter and the chances are the convention will refuse to adopt it. It was ordered placed on the table when brought up the last time and any attempt to take it from the table will be resisted.

## WILHELMINA IS ABLE TO SLEEP

Holland's Queen Reported as Improved, and Taking Nourishment in Small Quantity.

WILHELMINA.

God!—for thou art, thou art, O God! Beyond the reach of death and despair, Of fate's unmovable immensity.

From deeps that terror leaves untrod Our broken thoughts unite in thee!

O God of hope beyond all hope! God of a true and burning prayer! God of all sorrows but despair.

Thy tranquil mercy bounds the scope— Great King!—of all we dread or dare.

And in a world grown sudden still About thy throne we kneel in prayer! One hearted go forth to meet thy will, Whose good is good in good or ill.

We rise, and look thee in the face. —Marion Marston.

The Hague, May 8.—Queen Wilhelmina sleeps at intervals. She has taken a little nourishment this morning. There has been no recurrence of the fever as yet. The doctors are able to take more rest and the patient is making satisfactory progress.

There seems to be a general relaxation of the painful suspense that has prevailed since Sunday.

The secrecy with which the contents of telegrams leaving the Chateau Loo are guarded causes great anxiety and leads to the belief that the situation is more critical than the bulletins state.

CYCLONE SWEEPS OVER MICHIGAN

Editor Fillet of the Fenton Independent Is Rescued After Being Blown Into the River.

St. Joseph, Mich., May 8.—A cyclone swept over central Michigan early last evening, according to the meager reports received thus far, causing fatal injuries to at least two persons and destroying many buildings in its path.

At Newton, Clinton county, Charles Barnhart and his son were caught under a farm barn which collapsed. They were pinned to the ground by heavy rafters. The physician who examined them says that they will both die.

In Clinton county alone the damage to farmhouses and barns will exceed \$10,000.

At Flint, J. H. Fenton, editor of the Fenton Independent, was blown into the Shiawassee river. Heroic work of bystanders saved him from drowning. The Hillman school, five miles southwest of Fenton, was leveled to the ground and one man received internal injuries, which may prove fatal.

At Union City the plant of the Peerless Portland Cement company was wrecked by the wind. The big rotary building was practically destroyed, entailing a loss of \$4,000. Near Tekonsha ten barns were blown down. Reports say many instances live stock was killed while quartered in the destroyed barns. The loss in the cyclone district is estimated at \$40,000.

BANQUET PRESIDENT PALMA

Dinner by Spanish Residents and Breakfast by Workers at Cienfuegos.

Cienfuegos, May 8.—President Elect Palma was given a banquet by the Spanish colony of Cienfuegos, followed by a ball at the Cuban club.

The laborers of the city gave him a breakfast on the wharf, which was elaborately decorated for the occasion.

The presidential party left here for Santa Clara. It will reach Matanzas on Friday. The party will leave the latter city by steamer for Havana on Saturday at midnight, arriving there Sunday morning.

Pretoria, May 8.—An armored train from Pretoria to Pietersburg was derailed on the curve today. One lieutenant and ten men were killed.

IN A COTTAGE AT FIRST LAKE

Governor La Follette Joins His Family at Summer Home, Taking 14-Mile Horseback Ride.

Madison, Wis., May 8.—Mrs. La Follette and her children have taken a cottage at First Lake, where they will remain for a month or so. Gov. La Follette joined them there yesterday afternoon riding fourteen miles on horseback. He will doubtless spend as much time there as he can spare from his official duties during the next few weeks.

MAY GIVE PACKERS ANOTHER MONTH

Government Attorneys in the Beef Trust Investigation Are Not Making Most Rapid Progress.

Chicago, May 8.—Unless the authorities at Washington move with more speed the meat packers will be given another month in which to continue their alleged "squeeze" of meat buyers.

The bill for the injunction must be filed tomorrow to secure a hearing during the June term of court and if it falls of filing it will have to go over until the July term. There are indications this morning that the bill has left Washington. Others of the so-called trusts have looked to the assistance of the packers in concert to get a ruling adverse to the Sherman anti-trust law. It is said.

ELGIN WATER BOARD RESIGNS

Clash with Council Causes the Members to Retire from Office.

Elgin, Ill., May 8.—Elgin's board of water commissioners as a body handed to Mayor Price a document with the resignation of every member of the board. The matter of the document contained nothing more or less than a rebuke of the row stirred up by the water board when they opposed the street car company, the city council and a portion of the population by their refusal of a permit to the traction company to take water from the city hydrants for sprinkling purposes. As a final step in that difficulty a question of authority as between the city council and the water board arose. The traction company recognized the authority of the council, which the water commissioners attempted to block.

## BADGER TEAM WON FROM THE BELOITS

Pitcher Adkins Played the Game Under Protest, But His Team Lost—Score 1 to 2.

Madison, Wis., May 8.—Wisconsin defeated her old baseball rival, Beloit, yesterday afternoon by a score of 2 to 1 in the best game seen here in many a day. The victory was all the more satisfying because Adkins was in the box for Beloit. He was protested, but Coach Hollister, while admitting Adkins had played five years, insisted that his first year was in the preparatory department and did not count, and he was finally allowed to pitch. He was touched up for six hits while Beloit got but four off of Richardson.

The ninth inning opened with the score a tie. Beloit failed to score in her half. Then with two Wisconsin men out, Adkins gave Curtis a pass to second, and when Merrill dropped the ball went to third. Merrill's throw to catch him there went over Loranger's head and Curtis completed the circuit.

CANNON THROWS A SHELL 90 MILES

Theoretically the Device Throws a Projectile Weighing Two Tons, and Strikes the Mark.

Berlin, May 8.—Professor K. Birkeland, the Norwegian physicist, has been in Berlin recently for the purpose of demonstrating the powers of his electromagnetic cannon before a number of experts in electrical artillery. The results of the demonstrations have been so convincing, that a firm of artillery manufacturers has bought the invention for immediate exploitation.

Theoretically the device can throw a projectile weighing two tons a distance of ninety miles, or even further, by sufficiently prolonging the tube. The principle upon which the new gun acts has not been made public, but it is known that the projectile is expelled from an ordinary cast iron tube thickly wrapped with copper wire. This tube, can of course, be made more cheaply than the cannon now in use. No explosive gases result from the discharge of the new gun.

Professor Birkeland's invention has stirred up great interest among technical observers, some of whom are of the opinion that it signifies a greater revolution in fighting material than that brought about by the discovery of gunpowder.

AWFUL STORY FROM THE PHILIPPINES

Native Women Confined in a Room with Fifteen Men, for a Period of Three Weeks.

Washington, D. C., May 8.—Ex-Serg't Isadore Dubé testifies before the senate Philippines commission this morning that among the cruelties practiced on the native Filipinos he knew of one case in which Capt. Glenn of Water-Cure fame confined native women in a room with fifteen men for a period of three weeks. Also that he saw the water-cure administered by Glenn's order.

GAME WARDEN IN A LIVELY FIGHT

Arrest of Two Illegal Fishermen a Oshkosh—Caught in the Act—Both Are Fined.

Oshkosh, Wis., May 8.(Special)—After a lively fight in which revolvers were used deputy game wardens, Nelson and Gratz, last night arrested two illegal fishermen, Charles and William Lawrence, with nets and fish in their possession last night across Lake Mendota. Charles Lawrence was slightly wounded in the hand by a shot from Nelson's revolver. In court today they paid fines of seventy-five dollars and twenty-five dollars and costs.

REGULAR ARMY TRAINING SCHOOL MAY BE LOCATED AT CAMP DOUGLAS

Congressman Esch Has Secured an Order from the War Department to Survey the Wisconsin Site—General Ernst Will Be in Charge.

Washington, D. C., May 8.—Representative Esch today received a letter from the secretary of war informing him that Brig-Gen. O. H. Ernst had been detailed by the department to make a survey of Camp Douglas, Wis., and the surrounding country, with the view of establishing a regular army training school there. The last congress provided for four army training stations, one each on the north, east, west and south of the United States. The military board which met last year to select places for these training stations located the northern one at Fort Riley, Kas.

Mr. Esch suggested to Secretary Root the advisability of selecting Camp Douglas or vicinity as far better situated than Fort Riley, chiefly because the government owns about 60,000 acres of land there. Mr. Esch pointed out the advantages of Camp Douglas locality as regards climate, railway facilities and the like, and as the result of his work the brigadier general was detailed to survey the locality.

Should the war department decide to establish its northern training station at Camp Douglas, it is probable that it would require a tract of land adjoining the state military reservation. The point is almost equally distant from Fort Snelling, in Minnesota, Fort Sheridan, Illinois, Fort Brady at the Soo, and the new fort to be erected at Des Moines.

General Ernst, who is to make the survey, is well known to Wisconsin national guardsmen. He commanded the brigade which contained the second and Third Wisconsin regiments in the Porto Rican campaign and won the esteem of the troops. Mr. Esch has notified Adj-Gen. Boardman at Madison and General Charles King at Milwaukee of the action of the department, and it is expected that they may accompany General Ernst to Camp Douglas to give him the benefit of their knowledge of the territory. Should the government establish the post there, about 20,000 acres of land would be required.

FLORID HUE IN SENATE DEBATE

Senator Tillman Says the White's Will Rule the South.

A SHOTGUN POLICY

Democrats Leave Chamber While Colleague Makes Material for Republicans.

LANGUAGE IS CAUSTIC

Washington, D. C., May 8.—Senator Tillman yesterday afternoon confessed the crimes of the Democratic party in the South and almost broke the back of the opposition to the Philippines bill. Every other Democratic senator left the senate chamber soon after Tillman began to speak, and they remained in the democratic cloak-room until he had finished. They sought by conspicuously and dramatically absenting themselves to repudiate Tillman's tirade, but in his confession of the crimes of Democrats against the negroes in the South he spoke so much truth they realize the incalculable injury he has done to their opposition to the Philippines bill, but particularly to their attack on the United States army.

Tells of South's Principles. The speech by Mr. Tillman was one of the most remarkable ever delivered in the United States senate. The Southerner said, had it been known the negroes would be given the reins of government, the civil war would have been prolonged indefinitely.

The senator was candid in expressing the democratic attitude toward the negroes. He insisted that, in order to maintain their self respect, the white people of the South had been obliged to subdue the negro by whatever means they could, using the shotgun as one of the means. He frankly described how the negroes had been defeated at the polls, admitting that the whites had gotten just such majorities as were necessary.

When we get ready to put a nigger's face in the sand," he shouted, "we put his body there too."

Fears Negro Domination. He declared that the people of the South never would submit to negro domination, and he hoped republican senators would turn from their "game

of devilry in the Philippines" and assist the South to rid itself of the threat of negro domination.

The democrats fully realize that Tillman's speech is the best possible campaign material the republicans have discovered at this session of congress. It was so defiant and so clearly expresses the ultrademocratic

## TEXT OF ORIGINAL LETTERS FROM H. C. KRESS TO HENRY C. PAYNE

They Are the Foundation of the Charge that La Follette Tried to Form a Combine with What He Called the "Machine" in 1900.

The complete correspondence, verbatim between Messrs. LaFollette, Kress and Payne, regarding the effort of the present governor to make terms with what he had dominated as the "machine" is herewith given in full.

The correspondence opens with a letter under date of May 3, 1900, written by H. G. Kress, a mutual friend of the two gentlemen interested—Messrs. Payne and LaFollette. The letter states that the writer had already had two conferences with LaFollette, and regrets that Mr. Payne was not in Milwaukee at the time the republican state convention was held for the purpose of electing delegates to the national convention to be held in Philadelphia in June.

It will be remembered that at that convention opposition developed among LaFollette's followers to the return of Mr. Payne to membership on the national committee and a contest was made over the election of some of the delegates at large to the national convention. The latter in full is as follows:

H. G. Kress to H. C. Payne  
"Manitowoc, Wis., May 3, 1900  
"My Dear Mr. Payne: While in Milwaukee in attendance at the convention, I had two conferences with Mr. LaFollette. He is a friend of mine and has been for years. If you had been in Milwaukee at the time I am certain that not even a contest would have been made in the convention. I have been working in the interest of harmony, and think considerable headway has been made.

"Why can't we get together? Do you object, if the contesting against you is stopped? Confidentially, Mr. Payne, I believe the time is ripe to unite forces. Why not let LaFollette have his chance if he is willing to stop fighting on his side. I will say that I was authorized by LaFollette leaders to see you the evening before the convention, but I found you were out of the city. They knew I was your friend and was also friendly to 'Bob'. Those young fellows are a growing strength, and will increase in power yearly. We can have them with us by a little diplomacy at this time.

"Will you write me what you think of it? I assure you everything shall be held in the strictest confidence, as I request this of you.

Yours very sincerely,  
H. G. KRESS."

Reply of Mr. Payne.  
The reply of Mr. Payne to the above:

Your last letter makes it unnecessary for me to answer yours of the 12th further than to say that my going back on the national committee is not of my own volition or seeking, but if I do so it will be a result of pressure brought to bear upon me by parties high in official life whose wishes I have not felt at liberty to disregard, and that to devote the time and labor incident to the coming campaign which I am sure I will be called upon to do is a serious thing for me to undertake.

"Further, I am a life-long friend of Senator Spooner; in fact, I think he is my most intimate friend from any point of view, and I could not, under any circumstances, put myself in the position, so far as it relates to him, that is suggested in yours of the 12th.

"Replying to your letter of the 19th No one is more anxious than I am to have the present canvass for the nomination of our candidate for governor conducted in such a way as to leave no scars and to relieve the party from factional fights which have

"Dear Mr. Kress: I received your very kind favor, and am writing to Pennsylvania, as suggested. Was very sorry indeed not to have met you before leaving Manitowoc, as stated in my note, but it was absolutely necessary for me to take an earlier train. I hope when you return that we will be more fortunate. With reference to the latter part of your letter, I enclose herewith an interview which I think will answer questions fully. You will be gratified to know that the situation throughout the state is improving daily. This time we are going to win, and win easily. I sincerely hope I can count upon Manitowoc county.  
Very truly yours,

### AMUSEMENT NOTES.

Rose Coghlan is to appear at the Myers Grand on May 16 in "Forget me not" a powerful play dealing with life in the aristocratic circles of England's most exclusive society. Amid an assemblage of peers, peeresses, prelates and diplomats, Rose Coghlan as Stephanie De Mohr, an adventuress, endeavors to maintain her position in society by in-

trigue, calvary, threats and blackmail. The various emotions depicted by Miss Coghlan in her efforts to preserve her foothold in the position she has usurped by means of feminine wiles and methods, that, when revealed, leave her a crushed and broken woman, utterly disgraced—show her to be a past mistress in her art, indeed the superb emotional acting of this famous actress, the brilliancy of her jewels, the beauty of her costumes, the great charm of her personality have all combined to attract great houses to witness her fascinating performance of a character which no other actress in America could so well impersonate.

# SLATE IS CHOSEN BY REPUBLICANS

Mamer and Busse from Cook  
to Head the State  
Ticket

KIMZEY FOR SUPERINTENDENT

Leaders Seem Determined to Force an  
Indorsement of Congressman Hop-  
kins for United States Senator, Which  
May Precipitate Clash in Convention.

Clerk of the supreme court—Chris-  
topher Mamer.  
State treasurer—Fred A. Busse.  
Superintendent public instruction—  
Walter R. Kimzey.  
Trustees—state university—William H.  
McKinley, J. H. Kerrie, Mrs. Laura B.  
Evans.  
Temporary chairman state committee—  
Joseph G. Cannon.  
Permanent chairman—William A.  
Northcott.  
Chairman committee on resolutions—  
John M. Smyth or Ethelred Haney.  
Indorsement as United States senator—  
Albert J. Hopkins.  
Chairman state committee—Daniel Ho-  
gan, Fred H. Rowe or Len Small.

Springfield, Ill., May 8.—The forego-  
ing slate was practically agreed upon  
by the Yates-Lorimer-Hopkins com-  
bine. Judge Haney of Chicago proba-  
bly will be named as chairman of the  
important committee on resolutions.  
Secondary interest is taken in the  
temporary officers of the convention,  
as it is believed, apparently, that no  
presiding officer will dare rough-and-  
tumble tactics in a situation where  
the election of the state ticket is in  
danger.

William Lorimer of Cook county is  
the commander in chief of the admin-  
istration forces and there seems to be  
little likelihood that the foregoing  
slate will be broken. The nomination  
of Mamer, Busse and Kimzey is re-  
garded as a foregone conclusion. The  
other selections are tentative and may  
be revised.

The proposition to force an indorse-  
ment of Congressman Hopkins for  
United States senator is the consuming  
issue and the prospects are growing  
better hourly for a bitter fight on the  
floor of the convention. The Hopkins  
leaders say they will offer a plank  
unequivocally indorsing the Aurora  
man for the senate.

Whether that plank will be a color-  
less indorsement or a declaration  
amounting to an instruction is open to  
much speculation, but the majority  
leaders are agreed that the indorse-  
ment plank shall be adopted and they  
count on practically the united support  
of Cook county and its 529 out of  
1,516 delegates.

The Sherman-Dawes-Mason combine  
caucused and agreed to fight a Hop-  
kins indorsement to the bitter end and  
to demand a roll call on the proposi-  
tion.

## ILLINOIS REDMEN'S OFFICERS

Great Sachem and Others Elected by  
the Peoria Convention.

Peoria, Ill., May 8.—At the state  
convention of the Illinois Redmen the  
following officers were elected: Great  
sachem, F. C. Smith, East St. Louis;  
great senior sagamore, J. R. Wilson,  
Chicago; great junior sagamore, C. H.  
Wineman, Auburn; great prophet, P.  
J. Hewisch, Chicago; great keeper of  
wampum, Will G. Baker, Moline; great  
representatives, J. C. Gerhardt, Pe-  
oria; William D. Newton, Bloomington;  
W. E. Sheppert, Lincoln; great  
trustees, S. F. D. Crook, Shelbyville;  
H. B. Bischoff, Collinsville; H. E. Par-  
ker, Jr., Galesburg.

## INDICT BROOKLYN'S MAYOR

Officials of Illinois Town Charged with  
Malfeasance in Office.

Springfield, Ill., May 8.—F. F. Van-  
derberg, mayor of Brooklyn, Ill., and  
a member of the Republican county  
central committee, and former City  
Clerk D. W. West of Brooklyn were  
arrested on indictments returned  
against them by the grand jury. The  
indictments charge them with forgery,  
malfeasance in office and conspir-  
ing to obtain money under false pre-  
tenses. West is in jail but Mayor Van-  
derberg was released in \$2,000 bonds.

## Form Big Paper Company.

Kalamazoo, Mich., May 8.—The  
Munising Paper Company, limited,  
which has just been organized with a  
capital of \$1,000,000, will build the  
largest pulp and paper mills in the  
United States at Munising, Mich.

## New Jersey Boy a Giant.

Freehold, N. J., May 8.—Probably  
the biggest boy in the state is Jay  
Hopping, of New Monmouth. He is  
fifteen years old, six feet two inches  
tall, and weighs 207 pounds.

## Car and Foundry Company.

Trenton, N. J., May 8.—The West-  
ern Steel Car and Foundry company,  
capital \$1,250,000, was incorporated  
here to manufacture cars and do a  
general foundry business.

## New School Superintendent.

Valparaiso, Ind., May 8.—Arthur A.  
Hughart, county superintendent, was  
elected superintendent of the Val-  
paraiso schools in place of C. H.  
Wood, resigned.

## Five Die at Bull Fight.

Madrid, May 8.—During a bull fight  
at Linares the platform on which the  
spectators were seated collapsed, kill-  
ing five persons and injuring over  
fifty, many of them severely.

## Dr. Riggs Declines a Call.

Auburn, N. Y., May 8.—Rev. Dr.  
James S. Riggs has announced his de-  
cision to decline the call to McCor-  
mick Theological Seminary of Chi-  
cago.

## TRAIN KILLS TWO STOCKMEN

Heavy Fog Causes Collision at a North  
Topeka Crossing.

Topeka, Kas., May 8.—During a  
heavy fog an east bound extra freight  
train on the Union Pacific ran into  
freight train No. 14 at a crossing in  
North Topeka, killing Alfred McCand-  
less, a stockman of Natoma, Kas.,  
and an unidentified stockman, and in-  
juring seven men. Engineer Zim-  
merman of the extra did not see the  
lights of the regular train because  
of the fog and the other crew could not  
get its train out of the way soon  
enough to save it.

## Canker Worm Ruins Orchards.

St. Joseph, Mo., May 8.—Thousands  
of orchards in northern Missouri are  
stripped of foliage and will not bear  
fruit this year. The canker worm is  
responsible. It is impossible to es-  
timate the final loss to fruit growers  
but in one instance the owner suffers  
the loss of an entire apple orchard,  
the crop of which has been sold on an  
average for \$10,000 a year.

## Buy Grand Rapids Bank.

Grand Rapids, Mich., May 8.—Wil-  
lam H. Anderson and other interests  
allied with the Fourth National bank  
acquired a controlling interest in the  
Fifth National bank, buying the stock  
at between 80 and par. The Fifth  
was organized in 1888, with a capital  
of \$100,000. Its last statement shows  
\$627,000 in deposits and \$540,000 in  
loans and discounts.

## Purchaser Gravel Lands.

Chicago, May 8.—For \$50,000 L.  
O. Person has purchased from  
Michael Hayes 240 acres of  
land bordering the lake about  
four miles north of Waukegan.  
It contains extensive and valuable  
gravel beds. It is said that the new  
owner has interested capital and that  
the beds will be worked to their ut-  
most.

## Timekeeper Under Arrest.

Escanaba, Mich., May 8.—Timekeep-  
er Harry P. Furlott of the Chicago,  
Milwaukee & St. Paul ore dock was  
arrested and charged with forging time  
checks. It is claimed by Special  
Agent B. F. Romaine, who made the  
complaint, that Furlott credited men  
with work not done, drew the money  
himself and forged the receipts.

## Window Glass Combine.

Trenton, N. J., May 8.—Articles of  
incorporation of the Federal Window  
Glass company, capital, \$500,000, were  
filed here. It is the intention to take  
into this new organization all the  
plants now in the Federation Window  
Glass company, consisting of about  
fifty window glass plants in the east  
and west.

## Philippine Ports to Open.

Manila, May 8.—Gen. Chaffee has  
sailed on the transport Ingalls for the  
Lanao district of the island of Min-  
danao. He has ordered Gen. Davis to  
arrange a conference with the promi-  
nent surviving sultans and dattos.

The ports of the island of Samar  
have been ordered to be opened to  
trade May 15.

## Independent Order of Foresters.

San Francisco, May 8.—The Su-  
preme court of the Independent Or-  
der of Foresters formally closed its  
session, begun in Los Angeles, by in-  
stalling the officers-elect in this city.  
The report of the committee on state  
of the order showed it to be in a very  
prosperous condition.

## Steamship Line to China.

San Francisco, May 8.—Plans are  
being quietly pressed in the east for  
the creation of a new steamship line  
between San Francisco and Hong-  
Kong to run in conjunction with the  
proposed Canton-Hankow railroad.

## Mrs. Livermore May Lose Sight.

Boston, May 8.—Mrs. Mary A. Liv-  
ermore, the well known woman suf-  
ragist, is confined to her home at Mel-  
rose by a serious difficulty with her  
eyes. It is feared she may become  
blind.

## A GOOD BACK MEANS HEALTH.

If people only realized what a  
good back means they would strive  
at all times to maintain its supple-  
ness. Rigidity of the spine inter-  
feres with the blood supply of the  
spinal cord. Any interference with  
this circulation immediately effects  
the vitality of the whole body. One  
portion of the column may be in per-  
fect condition while another is rigid,  
and that portion of the cord within  
is starved for lack of perfect circula-  
tion. If these defects which the  
osteopath finds so frequently were  
righted, the vitality of all parts of  
the body would be equal and the ten-  
ant would be comfortable. At present  
many people are trying to their  
earthly habitations by plaining doors  
and windows. By taking drugs into  
the system it is impossible to cor-  
rect the structure of the body; if  
persisted in it ruins the chances for  
perfect structure. —Osteopathic  
Health.

## Simplifying the Law.

poses to reform the obscure legal  
phraseology, which is even worse in  
France than in England, and substi-  
tute plain, straightforward sentences  
which even the most uncultured peo-  
ple will be able to understand.

"I was weak, nervous and dizzy, with a

Jesse Childress, Esq., of Samuel, Sullivan  
Co., Tenn. "Could not walk any distance;  
always felt bad after eating; felt as though  
something was sticking in my throat, al-  
ways uneasiness in stomach. Doctored  
with three physicians but they did not  
relieve me. I grew worse and used  
everything I could think of; was nearly  
ready to give up and then some one told  
me that Dr. Pierce's medicine was good,  
so I began taking his 'Golden Medical  
Discovery.' I have taken seven bottles of  
that now and am as stout as ever, and en-  
joying health as much as ever before. I  
worked all summer and this winter as  
much as any one. My case was liver dis-  
ease and nervous dyspepsia of which your  
medicine has cured me. In September  
1899 my weight was about 95 pounds, now  
it is 135. Please accept my sincere thanks."

## KEEP THE MONEY AT HOME

There has never been a time in the history of the country when the spirit of speculation among all classes of people was so rife as at the present time. Wall street was the scene of crazy stock ventures a year ago, the whole city was wild. Clerks mortgaged their salaries months in advance, women invested their savings, and while money was made rapidly by a small class of fortunate people, and their success was heralded all over the country, yet the great army were losers, and the world is never interested in the people who fail.

The scene of speculation has been transferred from Wall street and during the past year it has spread over the entire country like wild fire, until today in every hamlet and village, as well as in the cities, all sorts of schemes are promoted and in answer to glittering advertisements and the personal solicitation of smooth promoters, people are induced to invest money, hoping for quick returns and large profits.

This mania has struck Janesville, and as a result, thousands of dollars have been invested in schemes that look plausible on the surface, but which are absolutely without foundation. Ministers who have saved a little money, have become interested. Business men who are borrowing money for business purposes, are infatuated. Mechanics, laboring men and women, who have by careful economy accumulated a little for a rainy day, have invested their all, and it is safe to say that 90 per cent. of them will never see a dollar of either principle or profit.

Mining and oil schemes are most popular, and as a rule they are as visionary as blue sky. Any one who has crossed the mountain ranges of the great West, must be impressed with the fact, that there is a vast territory of wild and uninhabited country. It is doubtless true, that hid away in the caverns and gulches, is a wealth of precious metals, but it requires the eye of experience to locate them, and a mint of money to develop them. The men who are successful in mining, are not obliged to unload stock for developing purposes. They invest liberally of their own money after becoming thoroughly familiar with the ground through mining engineers and geological experts. There is seldom any small blocks of stock for sale in a paying mining company, and however well the proposition of a promoter may look on paper, the chances are that the mine is largely prospective.

Next to mining schemes is the oil field fad, and this has captured innocent investors by the thousands. A strip of land the size of a building lot out on the Godforsaken prairies of Texas, is all that is necessary for a start. The land itself isn't worth a postage stamp. If a well is driven at trifling expense and oil is struck, the outfit is capitalized for half a million and there are plenty of suckers ready to invest. If the well proves to be a gusher it is worth on the market \$25,000 and yet it may be capitalized for a million. The man who buys it at any price, has an elephant on his hands, for there is no market for the oil, and the well is simply plugged up and added to the group of 150 others in the same locality, to wait for future developments. The recent earthquakes in the Texas oil fields have had a depressing influence, for the wells have ceased to flow, which means the additional expense of pumping, if the oil is ever in demand.

Janesville people who have invested in this class of stocks, or any other of a speculative character, may gain some valuable experience, but if they expect more than this, they are very liable to disappointment.

This home money might far better be invested at home. Buy a lot and raise dandelions. It will never be worth any less. If you have money enough, build a cottage, it will rent for \$10 or \$12 a month as soon as completed, and sell any day for cost. If you want to deal in stocks, invest in some home company, where you know the management, but it is usually a safe proposition for small investors to keep out of stock companies. If the money actually burns in your pocket, go and hide it away in a bank vault or bury it in the ground where you can find it, before going into some wild cat scheme which amounts to nothing more than a confidence game. The good Lord never intended that everybody should be rich, or He would have endowed humanity with more common sense. There are too many rainbow chasers, and Janesville has its full quota. Invest your money at home, where you can find it, and contribute something to the prosperity of the city.

## THE NEW INDUSTRY

That beet sugar is the coming industry for southern Wisconsin, will not be questioned by the men who attended the business men's meeting last Tuesday evening. Not that it will "spring in" to existence, like a mushroom in the night, but that it

is practical and capable of extensive and profitable development. It will require time to educate the farmers to believe that so insignificant a crop as beets can be made to pay, and it will require patience on the part of the farmer to become proficient as a grower, but time and patience will accomplish both. The sugar industry is as staple as wheat or any other cereal. Germany, the great beet sugar country, with no better soil, produces an average of 25 tons per acre. Wisconsin can do as well. The beets are worth from \$1 to \$4.50 per ton, and a liberal expense for growing and handling, is \$35, per acre. The most successful growers raise from 5 to 10 acres, rotate the crop every two years and use no fertilizer but clover. Some men plant extensively and then the crop pays better than any other.

Janesville is well located for a sugar plant. It has the railroad facilities and the territory within 25 miles is easy of access in all directions. What is wanted this year is 50 farmers who will plant from one to two acres each, the product to be shipped to the Menomonee Falls factory for testing purposes. There is no chance for any loss as the factory will pay for the crop and furnish a man to give instructions as to the planting and culture. Walter Helms, the main street seedman, has the matter in charge, and can furnish full information. The crop should be planted this month, as it requires five months to mature. Chemical tests have already been made by Professor Henry and there is no question about results. The practical test to be made at the factory will determine whether a plant costing \$400,000 shall be put up in Janesville, providing 4,000 acres can be secured to maintain it.

## THE KRESS LETTERS

The correspondence just made public, between representatives of the governor and H. C. Payne, under date of May 1900, is the much discussed correspondence, that was shrouded in mystery. It will be remembered that when Jones, Bradford, and Whitehead retired from the gubernatorial race two years ago, and when Senator Spooner wrote his letter, that Payne and Pfister were accused of being in a deal with LaFollette, and that as a result of the deal LaFollette was nominated without opposition. It is gratifying to know that while an effort was made to compromise Mr. Payne, that he was loyal to his friends, as his letters plainly indicate.

The correspondence stamps the character of the governor as an office seeker, willing to resort to political methods for success, that will be a revelation to the men who have believed in him as an ideal reformer. Mr. Kress talked for him, with the same degree of authority as Mr. Murphy. He was ready to make a deal with the men whom he had denounced as corrupt and to form an alliance, with a "machine" that he regarded as a menace to the state.

The mask is removed and the governor will be recognized as a sawed and scheming politician. He has a perfect right to the title; and to men who know him well and whose vision has not been blinded by prejudice, the spectacle is not disappointing. His absorbing ambition to be governor was gratified without opposition and no man ever had a better opportunity to make a record for himself. The men who tacitly consented to his nomination in the interests of harmony, had grave misgivings as to the results and his one term of office demonstrates that these misgivings were well founded. He was too small a man to rise to the dignity of the occasion, and a desire to gratify personal ambition and punish men who did not agree with him, makes up the record of his office life as chief executive.

The session of the legislature became a farce, long before it closed, because of his erratic course. The summer was devoted to regaining lost vitality and the balance of his term is spent in a campaign to perpetuate him in office. If anything else has been accomplished it is not a matter of record.

The state of Wisconsin is a good natured state. It is blessed with a contented and happy constituency. The people enjoy the reputation of being honest, and they have confidence in each other. They never discovered, until the primary law was sprung on them, that they were handicapped or in any way deprived of their rights as American citizens. Under the glittering generalities of a primary law, some of them were led to believe that the state would be better governed if such a law was adopted, but when the true inwardness of the scheme was exposed, they were ready to let it alone. They have discovered that the governor is a man of hobbies, and that his inspiration is personal ambition. The seal of disapproval is already stamped upon his record and the convention is only necessary to fix it beyond recall.

The letters published in full in another part of the paper, will be read with interest.

Congressman Dahle finds a good many gaps in his fences in Dane county. He will devote the summer to repairing them and will be ably assisted by an enthusiastic constituency.

In the death of Brete Hart, the country has lost another bright writer. The Luck of Roaring Camp introduced Mr. Hart to the public, and he has been a favorite ever since. He was an old time journalist, and

was held in high regard by the fraternity. Possessed of a genial disposition, he won a host of friends who will sincerely mourn his death.

The "Amerika," the Scandinavian paper, at Madison, calls Prof. Stroem the "father of the time for deserting his old friend, Dahle. The paper claims that the Professor is an ingrate. That Dahle took him into his home, secured the Mt. Horeb school for him and put him on his feet. It also claims that he does not represent the sentiment of his people, who are unanimous in condemning the course of the governor.

This is an opportunity for the county and city to work together and it should be improved. Seth Fisher, the veteran farmer from the town of Center, is enthusiastic on the subject. The Gazette invites correspondence and will be pleased to answer any question concerning the industry. There is no rookback about the "Kress" letters. They speak for themselves, with no uncertain sound. When the LaFollette shouters get through explaining, another hand book will be in order.

The appointment of Gen. Bragg of Oshkosh, to be Consul General at Havana, will give universal satisfaction. While General Bragg is a democrat, he belongs to the conservative class, who came to the aid of the republican party, when the country was threatened with Bryanism. He enjoys a record for loyalty and manhood that is untarnished, and the President has made a wise choice.

## PRESS COMMENT

Appleton Post: Oshkosh claims that it soon will have Fond du Lac for one of its suburbs. Oshkosh was always good at claiming.

Milwaukee Journal: Gov. LaFollette may be a political spider, as some of his enemies claim, but his web got badly torn when he invited Mr. Dahle in to his parlor.

Fond du Lac Reporter: Now that Mr. Morgan has succeeded in merging the ocean carrying lines of the country, he is said to be after the English railroads. This world will soon be too small for such men as Morgan, Rockefeller, Carnegie, et al.

Oshkosh Northwestern: A Detroit paper recently contained an advertisement which read "If Mr. Blank who is supposed to be in Chicago will communicate with his friends at home he will hear something to his advantage. His wife is dead."

Adelaido King in Milwaukee Sentinel: A New York woman wants a divorce so badly that she is going to walk to Dakota to get it, as she has no money to ride. Then she will probably marry again in six months. Such a woman.

Catholic Standard and Times: Native Pride—"I suppose," said the Easterner sarcastically, "you never have a single cyclone in your country." "Right you are," replied the Kansan boastfully, "we never have anything less than a bicyclone or a tricyclone here."

Philadelphia Record: "We" have captured another Philippine general," announced the boarder with the paper. "I wonder when we will capture a private?" asked the hat clerk; "there seems to be more generals in the Philippines than there are colonels in Kentucky."

Milwaukee Sentinel: The compilers of the Voters' Hand Book evidently overlooked the little matter of attempting to make a combination with the machine which proves to be such an interesting chapter in the romance of the great Wisconsin "reformer."

Racine Journal: The Whitehead letters are shedding luminous light on the mischievousness and dangerous character of the proposed primary election bill. The third letter well shows the machinery in the petition requirement, which would certainly build up a vast political machine.

BEET SUGAR FACTORIES. "A beet sugar factory is to be established at Dorchester. It will be one of twelve beet sugar manufacturing plants, each with a daily capacity of 500 tons of beets and costing in the aggregate over \$5,000,000, which will be built in different parts of the state the coming fall by Wisconsin and Michigan capitalists who own and control the Menomonee Falls Beet and Sugar Company."

Eau Claire would be one of the best points in the state for one of these plants.—Eau Claire Telegram.

## CAME NEAR BEING VERY BAD FIRE

Blaze Brought Under Control in McVicar Brothers' Store Without Aid of Fire Department.

What might have been a serious fire was extinguished this morning at McVicar Bros' plumbing establishment without calling out the fire department. The blaze however did \$200 worth of damage to the store and stock before it was finally extinguished.

One of the men employed in the plumbing shop, while cleaning up the room, struck a match for some purpose and in some way ignited a bunch of oakum which hung down from a bale on a shelf near him. The oakum being filled with pitch was highly inflammable and in an instant it blazed up like a barrel of oil. On the rack with the oakum was a large pile of pipe coverings and these also caught on fire.

The smoke from the oakum was thick and stifling and threatened to drive the people out of the store. Jack McVicar soon had a hydrant in the building and after ten minutes hard work succeeded in putting it out. It burned fiercely while it was going and consumed a good portion of the oakum, besides destroying a lot of pipe covers. Fortunately there was a steel ceiling on the store or the fire would certainly have communicated with the floor above. The ceiling was badly smoked and blistered and will have to be repainted.

McVicar Bros. place their damage from fire and water in the neighborhood of \$200. The fire department was not called, but a man was at the box at the corner of Main and Court streets ready to send in an alarm if the fire got beyond control of the force in the store.

Another incipient fire was discovered just before noon by Ark Sutherland in a small barn belonging to Dr. Loomis in the rear of McCue & Buss drug store. The wind had blown a lot of papers against the building and some one had thrown a cigar stub or a match among them setting them on fire. The blaze had communicated to the building when Mr. Sutherland discovered it but was put out with a couple of pails of water.

### Church Parlor Sociable

The Mission band of the First M. E. church held a delightful social in the church parlors last evening which was a grand success both socially and financially. The parlors were handsomely decorated with flowers and bunting and from the center was suspended a large Chinese umbrella from which was suspended lanterns and bunting. The boys worked hard to make the evening a success and the girls dressed in their prettiest costumes flitted about entertaining the guests. The refreshments were daintily served and everybody went home delighted with the evening's pleasures.

Invitations have been issued for a reunion of all of the members of the First M. E. church this evening. The first half hour will be devoted to prayer meeting which will be followed by a social and literary program.

### Hocketts Vs. Y. M. C. A.

The first bowling match between the Hocketts and the Y. M. C. A. team was rolled last evening on the Y. M. C. A. alleys. The Hocketts were victorious by a score of 2005 to 1914. The first two games were won by the Hocketts, and the last by the Y. M. C. A. A return match will be played on Hocketts' alleys in a short time.

The Century Heart club was entertained yesterday afternoon by Mrs. D. R. Morrissey at her home on Hyatt street. Cards furnished the principal amusement of the afternoon, the prizes being won by Mrs. C. Roelings, Mrs. E. J. Schmidley and Mrs. W. C. Flaherty. Refreshments were served to the guests after the card contests had ended.

## CARLE HAS FAITH IN BOWER CITY

His Recent Purchases Make Him the Largest Property Owner in the City.

By the recent purchase of the Mitchell property Levi B. Carle becomes one of the most extensive property owners in Janesville, now possessing property for which he paid over \$100,000. Mr. Carle is the owner of the three story and basement brick block at the north-east corner of Milwaukee and Main streets for which he paid \$32,000. His recent purchase was the three story and basement brick block on the corner of River and West Milwaukee streets for which he paid \$30,000.

His third block is the Mitchell property on the corner of Milwaukee and Franklin streets for which he paid \$34,000. The latter deal was made through F. L. Stevens.

In addition to the above Mr. Carle owns the two story and basement brick warehouse at the corner of Franklin and W. Bluff streets, valued at about \$10,000 and the frame tobacco warehouse at the corner of High and West Bluff streets, valued at about \$4,000, making a total of \$110,000 invested in business blocks.

Mr. Carle is a firm believer in Janesville property as an investment and has done as much as anyone in our city to promote its welfare. He is president of the Business Men's association and goes deep into his pocket when money is needed to promote an industrial institution.

### New St. Paul Depot.

F. E. Green, who has the contract for the plumbing, gas fitting and sewerage work for the new St. Paul passenger station states that the delay in starting the work was due to the fact that the engineer in charge of the track work not having his plans completed and the changing of the tracks which will be necessary to handle the railroad business during the construction of the station. It is expected however that these matters will be fixed up in a few days so that the tracks can be changed and the work pushed along to completion. The contractors are not losing any time and are getting material for the building in readiness so that there will be no delay when the work is once under way.

## PLAN TO GET EVEN WITH BULL FAMILY

Ex-Governor Peck Tells a Story on Ex-Governor Hoard That Dates Back to Thirty Years Ago.

"I was at Fort Atkinson a week ago," said Governor Peck at the Pilsener yesterday, to a Sentinel reporter, "and visited with former Governor Hoard. He has one of the very best farms I have ever seen and has been building a large barn, which we inspected. He wanted to show me about the farm, but before consenting to accompany him I insisted upon his tying up his bulls, for I remembered that while at Lake Mills about thirty years ago, in looking over some farm property, I found Hoard uncertainly poised on a limb of a tree and an infuriated bull at its foot waiting for him to drop. I never looked upon our guileless governor as a man likely to permit an animosity thirty years old to influence his present conduct, but I was given evidence of the way in which Hoard was playing even with the whole bull family.

"On his farm he has a cream separator and has a treadmill to furnish motive power. I asked the governor what he used to furnish power, supposing he used horses, when, much to my surprise, he pointed out a magnificent specimen of the bull family. 'You don't mean to say that you have harnessed that animal into habits which permit you to use him like an old broken down horse, do you?' I asked of him. 'Yes, I do,' retorted the governor, 'and he likes it, too. All we have to do is to lower the bars and that bull makes a rush for the power machine. He has been doing the work for a long time.' This evidence convinces me that Hoard has not forgotten the incident of thirty years ago and is getting even."

SONNETS OF A CONDUCTOR.

VI.

Last night it seemed as like every thing went wrong.

We started out from Boone an hour late.

And then got stalled behind a pesky freight.

And for half an hour crawled along.

Then for a while pulled out strong.

And then we had a hot box—then a flag.

And after that it was the same old song.

'Bout every mile or so we'd strike a snag.

And mind you, all this time I couldn't swear.

'Cause of them train rules. But I got so hot

I sneaked out in the vestibule and there

I said in good old cuss words what I thought.

For parlor cars those new train rules is great.

But lord, they ain't worth nothing when your are late.

## IT IS AN ACTUAL FACT:::

## SECRETARY ROOT STANDS BY POLICY

Accepts Full Responsibility for Action of Commanders in Philippines.

JUSTIFIES RECONCENTRATION

War Department Has No Record of Order of Extermination Said to Have Been Issued by General Smith to His Subordinates.

Washington, May 8.—Secretary Root has squarely taken upon his own shoulders full responsibility for the policy of retalliation and reconcentration pursued by American troops in the Philippines. In an answer to the Cullerton resolution the secretary replies to the persons who believed that he would, for political reasons, seek to evade accountability for the orders issued by Major General Chaffee, Brigadier General Bell and Brigadier General Smith, in accordance with order No. 100 published in 1863 by order of President Lincoln.

"The War Department saw no reason," the secretary states, "to doubt that the policy embodied in the above mentioned order was at once the most effective and the most humane which could possibly be followed, and so, indeed, it has proved." The secretary further states that the "War Department has not disapproved or interfered in any way with orders giving effect to the policy of reconcentration, but has aided in their enforcement by directing an increase of the food supply in the Philippines for the purpose of caring for the natives in the concentration camps."

All the written orders made by General Smith relating to the campaign in Samar received by the department, the secretary declares, "are based on and are in strict conformity with general order 100, issued by authority of President Lincoln."

The enemy having established a reign of terror by resorting to atrocities and expenditures which General Bell declared violated the well known laws and usages of war as announced in order No. 100, General Bell stated that their cause left no other means of protecting the lives of either the troops or peaceful or friendly citizens than to retaliate by executing a prisoner of war whenever prisoners or unarmed or defenseless Americans or natives friendly to the United States were murdered or assassinated for political reasons.

Secretary Root says the War Department has no record that General Smith issued an order of extermination. On that point General Chaffee reported that General Smith has "intended his remarks to refer to persons hostile to troops, not those friendly—any other inference will do him injustice."

### REGRETS SAMPSON'S DEATH.

Admiral Schley Expresses Sympathy for Family of Late Comrade.

Washington, May 8.—Admiral Schley made the following statement regarding the death of Admiral Sampson: "I regret very much the death of Admiral Sampson and I sympathize with his family. No one has ever heard me utter one unkind word about him. On account of his death I have requested my friends in Baltimore to postpone the delivery to me of the Cristobal Colon service of silver, and they have acceded to my request."

According to the present arrangement the funeral ceremonies over the remains of the late Rear Admiral Sampson will take place Friday morning at 10:30 o'clock at the Church of the Covenant. The remains then will be taken to Arlington for interment, accompanied by a splendid military and naval escort. The naval regulations prescribe that the pallbearers for the funeral of an officer shall be as near the rank of the deceased as possible.

### New Canal Bill.

Washington, May 8.—Senator Hoar introduced a new isthmian canal bill, leaving to the president, the selection of a route. The bill is brief, merely providing that "it shall be the duty of the President of the United States, as soon as the same can economically and conveniently be done, to cause to be excavated and constructed a canal of such depth and capacity as will be sufficient for the movement of ships of the greatest tonnage and draft now in use, and such as may be reasonably anticipated, from the Atlantic to the Pacific, by such route as may be selected by him, having satisfied himself of the right of the United States to construct and protect such canal."

The president also is directed to have harbors constructed at both ends of the canal, and he is given the authority "to employ such agencies and obtain such advice as he shall find necessary." Authority is given to the president to determine the terms upon which foreign countries may use the canal. The aggregate cost of the canal is fixed at \$150,000,000 and \$10,000,000 is appropriated for the beginning of work.

### Republican Congressional Committee.

Washington, May 8.—The executive committee of the Republican congressional committee was announced as follows: Representative Hull of Iowa, chairman, Cannon of Illinois, Mercer of Nebraska, Loudenslager of New Jersey, Russell of Connecticut, Lovering of Massachusetts, Connell of Pennsylvania, Metcalf of California and

Burling of Maine. Senators Proctor, Callinger and McBride retire from the committee. Mr. Babcock's determination as to his executive committee gives assurance that he expects to be able to direct the affairs of the chairmanship, which fact was in doubt for a time owing to his illness.

### Will Sign Oleo Bill.

Washington, May 8.—It is announced at the White House that the President will sign the oleo bill, thus making it law. Judge Springer and others interested in defeating the bill have been trying to persuade the President to veto the measure, but after careful examination and a report upon the bill by the Secretary of Agriculture, the President has determined that it is proper legislation and should be signed.

### Reveries Seek Position.

Washington, May 8.—Fresh from his incarceration in a Cuban prison, William H. Reeves has come to Washington in the expectation of obtaining a position in the government service. He said that he came here to get a position in one of the executive departments and added that he hoped to get it pretty soon.

### Kasson Undergoes Operation.

Washington, May 8.—John A. Kasson, the special plenipotentiary, under whose directions the pending reciprocity treaties were prepared, sustained the severe operation of laparotomy last Wednesday and is convalescing rapidly.

### MINERS AND OPERATORS MEET

Unable to Reach a Conclusion on Springfield Subdistrict Matters.

Springfield, Ill., May 8.—Herman Just, commissioner for the Illinois Operators' association, and President Russell of the United Mine Workers of Illinois were in conference yesterday.

They took up the difficulties of the miners and operators in the Springfield subdistrict, but were unable to reach a conclusion.

The greatest obstacle is the double-shift question. The miners dislike working nights unless they have assurance of being given day work in the course of time.

The same difficulty exists among the miners and operators of the Chicago and Alton subdistrict. A joint meeting will be held here to-day.

### RAILROAD FORCES IN A FIGHT

Six Men Are Killed in Clash Between Workmen in Tennessee.

Knoxville, Tenn., May 8.—A private telegram received in this city states that a report which had not then been verified reached Jellico that clash had occurred between the forces of the Louisville and Nashville and the Southern Railway at Log mountain, resulting in three men being killed on each side and several wounded.

According to the telegram the forces of the opposing railroads met while trying to reach a pass in the mountain which forms a strategic railroad position.

The Louisville and Nashville forces were in possession when the fight was over.

### Accident to Equilibrist.

Nashville, Tenn., May 8.—While 5,000 people were watching the feat of Achille Phellon at the Eagles' carnival the equilibrist fell from the cable at the top of the spiral tower and plunged headlong to the platform beneath. He clutched frantically at the cable and wire as he fell, but failed to grasp either. His head struck a ladder on the platform, fracturing the bones in the right side of the face. It is feared his injuries are fatal.

### State Bank for Chicago.

Springfield, Ill., May 8.—The Auditor of Public Accounts has just issued a permit to organize the United States Trust and Savings Bank at Chicago, Ill., with a capital of \$1,000,000. This is the fifth state bank in Chicago and the eighth in the state to be organized since February 27.

### Island Sale Is in Conference.

Copenhagen, May 8.—The land-thing readopted the original resolution regarding the Danish West Indies treaty, after two hours' spirited debate. The matter was then referred to a conference committee, consisting of thirty members of both houses.

### Hope for Wilhelmina.

The Hague, May 8.—The continued hopeful tenor of the medical bulletins from Castle Loo is dissipating the acute anxiety concerning the queen. The prince consort left the palace for the first time since Sunday.

## WONDERFUL DANDERINE

Chicago, Feb. 8, 1902.  
Known Danderine Co., Chicago—Dear Sirs: I have used your Danderine for nearly six months, and I think it is just fine. My hair now measures four feet and one inch, and it was less than two feet long when I commenced to use your tonic. I am going to keep it up and see just how long it will make my hair grow. Sincerely yours,  
Miss Helen Hart  
655 Kimbark Ave., Chicago.

Chicago, Feb. 8, 1902.  
DANDERINE is absorbed most eagerly by the scalp, and its properties are so invigorating and strengthening that it makes the hair grow unusually thick and long. When applied to the scalp it is just as sure to produce an abundance of long, glossy hair as a fertile soil is to produce vegetation when the seeds are sown. It is working wonders everywhere. We guarantee that one 25c bottle of it will do the hair more good than a gallon of any other hair tonic ever made. Be sure you get the genuine, made only by The Knowlton Danderine Co., Chicago, Ill. 25c, 50c, and \$1.00 per bottle. All druggists keep Danderine or will order it for you if you ask them.

## Dyspepsia Cure

**Digests what you Eat**

In speaking of indigestion, Dr. Lewis says: "It is deplorable that so many hundreds of thousands of Americans suffer from indigestion. It means that the blood of the nation is becoming impure; for undigested food poisons the blood. Unless a method is devised for overcoming this malady, our race must deteriorate."

Many persons use soda tablets to neutralize fermenting food; this only makes a chemical receptacle out of the stomach, and injures its sensitive structures. Others feed on pepsin, which is better, but not sufficient, for it digests only albuminous foods.

The preparation best fitted to relieve and absolutely cure indigestion is KODOL DYSPEPSIA CURE. It contains every known digestant and digests every kind of food. Its use is a common sense method of treating all stomach troubles, and the results are always certain.

**Students Die in School Fire.**  
Richmond, Va., May 8.—Burns University School, near Charlottesville, was destroyed by fire. Students Knox of Richmond and McNeal of Alexandria are missing and are believed to have perished in the flames.

**Criticism of Wife Causes Suicide.**  
Terre Haute, Ind., May 8.—Frank Underwood, aged 25, a farmer who lived across the state line in Illinois, committed suicide with poison because he had received an anonymous letter criticizing his wife.

**Elevator Tower Falls.**  
Buffalo, N. Y., May 8.—One of the steel towers on the new Dakota elevator blew down in a gale, falling into the Main street slip, which will be blocked for large vessels until the wreckage is removed.

**Dyers Return to Work.**  
Paterson, N. J., May 8.—The ranks of the striking dyers' helpers at Lodi were broken when 200 of the 700 strikers from the Alexander Dye Works returned to work without getting any concessions.

**PRESS COMMENT.**  
Nellsville Times: Will the Republicans sidetrack Spooner for Stephenson and his money? Stephenson is an avowed candidate for Spooner's place. His money is talking in the Half-Breed organs. His money is lubricating the LaFollette campaign. LaFollette could not drop him now if he wanted to. The people are not so blind but that they can see the combination—LaFollette for governor, Stephenson for senator. The success of one means the success of the other. The people will bury them both, and the service of Spooner to the country and the state will be retained.

**Lake Geneva News:** The settling of the fight begun against John C. Spooner by Gov. LaFollette is an impossibility. The two men are unlike. Spooner represents Republicanism pure and simple. LaFollette represents LaFollettism which is an entirely different thing. It might be possible to blend oil and water if they were stirred enough, but all the shaking in the world would not cause pure Republicanism to mingle with LaFollettism. It remains for the people to decide which they will take, for they cannot have both.

**Decorating Tobacco Warehouses.**  
The tobacco men are partaking of the spirit of improvement and the adornment of schools and other buildings that is so manifest in this city of late. Myron F. Green, of the firm of J. L. & M. F. Green, owners of the large warehouse near the passenger station of the C. M. & St. P. R. R., has purchased several shrubs and trailing vines and has planted them outside of the tobacco warehouse. The vines will be trained along the side of the warehouse to relieve the monotony of the bare brick walls. Several windows next to the station are filled with potted plants in blossom and producing a very charming effect.

**Very Low Excursion Rates to St. Paul and Minneapolis.**

Via the Northwestern Line. Excursion tickets will be sold May 18, 19 and 20, with final return limit until June 20, inclusive, account National Baptist Anniversaries. Apply to agents Chicago & Northwestern R'y.

**Homeseekers' Excursions to California.**  
Via C. & N. W. R. R., March 18, April 1 and 15, May 6 and 20, 1902.

On above dates the C. & N. W. R. R. will sell homeseekers' tickets to California at rate of one fare plus \$2 for round trip. Stop-overs allowed on going trip and privilege of diverse routes. For further information see ticket agent C. & N. W. passenger depot. Telephone No. 35.

**Heard Her Lover Die.**  
A cheerful telephone story is reported from Vienna. A young woman of Magyar-Czernya in Hungary was called upon the long-distance telephone by her sweetheart in the town of Taba. He said: "Would you like to hear how I shoot myself?" Then she heard the sound of a shot. It was found afterward that the man had really killed himself.

"If you wish to know what smartly dressed men will wear this season, ask to see Ziegler's Clothes."

## SUCCESS

Has often begun with a new suit of Clothes; you certainly cannot expect business success if you are poorly dressed; yet it is not at all necessary to spend a lot of money on your apparel in order to be as well and as stylishly dressed as your fashionable neighbor. You may not know it, but it is a fact, that many of the best dressed business men in this part of the State have worn the

for years in preference to having them made to measure, for they secure the latest styles, perfect fit and obviate the innumerable "try-ons," and possible disappointment in the end; besides they know they have exactly the same quality at

about half the expense. Why don't you form the "Ziegler Habit?" It will save you money and preserve your self respect. If, however, you are hard to please, we have the finest equipped Merchant Tailoring Establishment in the State, in the hands of a first class cutter who will supply you with as fine garments as the high class city tailors will give you but at a much smaller price
